

NETBALL NEW ZEALAND HIGH PERFORMANCE PATHWAY

WE PRODUCE SILVER FERNS WHO WIN

The Netball New Zealand High Performance Pathway has been created with the aim of producing Silver Ferns that win. The new pathway will ensure that individuals are systematically identified and developed through Netball New Zealand led programming and a national curriculum. The High Performance Pathway will begin at the U/15 age group with individuals assessed and benchmarked against the Netball NZ Player Profile. Individuals will then move into one of two streams; the Netball New Zealand Core or the periphery stream which consists of Centre/Zone Programmes. Athletes have the ability to move into and out of the core and periphery programmes on an annual basis.
